

We are thankful for North Carolina's thought leaders in education, business, faith and nonprofit communities, and representatives from the North Carolina General Assembly and the Governor's Office. Together, these leaders became the myFutureNC Commission and launched a statewide conversation about economic competitiveness, workforce development and educational attainment. With momentum building around myFutureNC and the statewide attainment goal, the organization officially transitioned from a commission to a nonprofit organization during 2019. Many of these leaders remain engaged in the work of myFutureNC as members of the board of directors, the advisory board of commissioners, and as trusted partners and advocates for educational attainment in North Carolina.
